

Urge **facebook** to create a “report animal cruelty” option

Millions of people "like" animal cruelty every day, when will it stop?

It's unbelievable to think that in 2017 there is still no option for reporting animal abuse on Facebook. Millions of people watch these videos and participate, often unconsciously, in supporting them and promoting more cruelty. And there is nothing that we can do. Therefore, we are pushing for social media outlets to take responsibility for their content and give the people a way to speak out against immoral and illegal animal abuse on their site! Support the cause and speak out with the hashtag **#ReportOnFacebook**
